Statement

Under the Education and Care Services National Law and Education and Care Services National Regulations, education and care services and early childhood services are required to obtain written authorisation from parents or guardians for some circumstances, to ensure that the health, safety, wellbeing, and best interests of the child are met and upheld. An authorisation is given where a person who has legal responsibility for a child gives permission to another person to do something or to make a decision on that person's behalf. Authorisations are usually authenticated by a signature- either in written form or as an electronic signature. All authorisation and refusals are to be kept in the child's enrolment record.

Purpose

Our priority is ensuring the health, safety and wellbeing of children. We believe that children's safety, rights, and best interests are the paramount consideration for all Service operations, decisions and functions. We aim to ensure that all educators, staff, students and volunteers are consistent in how authorisations are managed and understand what does or does not constitute a correct authorisation, which consequently may lead to a refusal. Our governance and quality management processes are effective and transparent and meet all regulatory requirements. Decisions around refusing an authorisation will be made on a case-by-case basis by the service in accordance with the nominated supervisor, Police, regulatory authority or other authorities.

Scope

This policy applies to children, families, staff, educators, management, approved provider, nominated supervisor, students, volunteers and visitors of the Service.

Implementation

Our Service will ensure we comply with the current Education and Care Services National Regulations, and have policies and procedures in place in relation to the acceptance and refusal of authorisations which require parent or guardian written authorisation to be

provided in matters including:

- Administration of medication to children (includes prescription, over the counter and complementary medication)
- Administration of medical treatment, dental treatment, and general first aid treatment
- Emergency ambulance transportation
- Transportation- including regular outings, regular transportation
- Safe arrival of children to the Service

Refusal of authorisations

All authorisations which are incomplete or incorrectly recorded are to be returned to the parent or guardian for required adjustments. Written or verbal authorisation may be refused if the authorisation does not comply with Education and Care Services National Regulations or child protection legislation. The approved provider or nominated supervisor will inform the parent or guardian the reason why the written or verbal authorisation does not meet national legislation or policy procedures.

The parent or guardian will be provided a copy of this *Acceptance and Refusal of Authorisation Policy* and procedure. Management will discuss an alternative arrangement with the family following the refusal of authorisation. If an authorisation is refused by the Service, it is best practice to document details surrounding the refusal.

Examples when an authorisation may be refused include:

- requests relating to dietary restrictions that cannot be safely accommodated by the Service and are not supported by medical or cultural requirements.
- an authorised person collecting the child appears to be under the influence of drugs or alcohol
- the authorisation breaches a parenting order
- the authorisation breaches a Service policy (authorised nominee under the age of 16 collecting a child)
- medication to be provided to a child that is not in original container or prescribed to the child or other breach of *Administration of Medication Policy*
- a breach of *Excursion/Incursion Policy* where the person providing consent for the excursion is not listed as a parent/guardian or authorised nominee on the enrolment form

Prior to refusing an authorisation or attendance, the Service will work collaboratively with families to clarify requirements, provide guidance, and consider reasonable adjustments where appropriate. Reasonable adjustments may include, but are not limited to, modified attendance arrangements such as later start times, earlier collection, or reduced hours. Adjustments will only be considered where they do not compromise the health, safety, or wellbeing of the child, other children, or staff at the Service.
